About Me

Frontend Developer with around 5 years of experience (React, Next.js, TypeScript). I own the frontend of Centrio, a B2B SaaS product, developing business-critical panels used by tens of thousands of employees at enterprise clients such as Turkish Airlines (THY).

Professional Experience

90 Pixel, Front-End Developer

10/2022 – Present

- I own the frontend of **Centrio**, one of the company's products, building responsive interfaces with **Next.js**, **TypeScript**, and **Tailwind CSS** and integrating **REST APIs**. İzmir, Türkiye (Remote)
- I own frontend processes end to end for projects built for strategic clients such as **Turkish Airlines (THY)**, used daily by tens of thousands of employees; the editor's stability is critical to the client's daily operations.
- Play an active role in the design and integration of an advanced **Notion-like text editor** aimed at enhancing the product's competitive edge.
- Contribute to maintaining code quality and standards within the front-end team by participating in code reviews and applying best practices.

Nonstop Technologies, Front-End Developer

11/2021 – 06/2022

- Customized websites with **custom HTML**, **CSS**, and **JavaScript** beyond standard **WordPress** and **Shopify** theme functionalities to meet detailed client requirements. New Jersey, USA (Remote)
- Designed and developed reusable custom components to provide functionalities not available in page builders, in line with project requirements.
- Implemented performance -and user experience- oriented theme adjustments on existing CMS infrastructures to ensure customer satisfaction.

Education

Anadolu University, Computer Programming

3.16 / 4 GPA

09/2023 – 05/2025

Eskişehir, Türkiye

Skills
